This list is not complete but is provided for the sake of comparison. Unfinished basements/storage areas are not included

Cost Regular cleaning is quoted on a flat rate basis. Contact us to set up a free quote. We are usually available within one business day. Based on the size and specifics of your home, and the service level and frequency you choose, we will provide you with a flat rate quote for cleaning. Bi-weekly cleaning is quoted at a higher rate because of the additional work required for each visit.

Initial Visit The first cleaning visit is often done on an hourly basis. This allows us to spend the time necessary to make your home sparkle like you want it to. After the initial cleaning, we will maintain your home at the flat rate quoted. A ball park estimate of the initial visit cost can be given at the same time as your free quote.
